Information meetings re: nurses tentative agreement Tuesday October 16

October 15, 2012

Important information meetings about the tentative agreement reached between the Nurses Bargaining Association and Health Employers' Association of BC are being held as follows:

HSA's board of directors urges HSA registered psychiatric nurses to vote "no" to the tentative agreement, as it introduces an element of two-tiered benefits, opening the door to an erosion of benefits for all nurses in the future.

Please attend an important information session in advance of voting on the tentative agreement. Voting will take place Thursday, October 18. Watch the HSA website, your e-mail inbox, and union bulletin board for information about where and when to vote Thursday October 18.
