

BULLETIN

North American Occupational Safety & Health Week (NAOSH)

April 24, 2014

Safety Week this year is from May 4 to 10. HSA chapters are encouraged to organize or participate in Safety Week activities planned for your sites. These events are usually organized by the facility Joint Occupational Health and Safety Committees and provide a great opportunity to profile the role of your Committee in your workplace.

There are many resources available to assist in organizing a Safety Week event. Please check out the links below to find posters, leaflets and videos that you might use in a display. If you would like help in producing materials, please let us know - we can print multiple copies for you and return them by mail.

To order copies of pamphlets or posters, send us an email indicating how many of each specific item you would like and provide an address where we should send the package.

And let us know if you need HSA items for draws or door prizes. Quantities are limited, but we will do our best to accommodate your needs.

Look here to find the resources you need:
