## **Please “Brown Bag your Lunch” on Friday, September 25**

USW members of Local 2009 are fighting for a fair collective agreement with Compass Canada. The members are amongst the lowest paid workers in the health care sector and are fighting for equality with other workers doing the same work.

Compass is not negotiating with the union at this time and need the support of their colleagues at Royal Columbian Hospital and Peace Arch Hospital to achieve a fair contract from Compass Canada.

Please support these workers in their fight for a fair wage and benefit package by “Brown Bagging your lunch” on Friday, September 25 and not purchasing products from any of the Compass food suppliers.
