Celebrating International Women's Day *Knowing our History – Shaping our Future*

**Thursday, March 8, 2012
HSA Office, Vancouver**

HSA invites women members to participate in a workshop that combines celebrating International Women's Day and in-house HSA training.

Part of the goal this day is to:

- raise awareness about women's issues and achievements;
- provide connections with groups working in the broader women's movement;
- develop and strengthen relationships with labour and community organizations consistent with the mandate of HSA's Women's Committee;
- re-energize and inspire members to be active in their union and community;
- foster solidarity between HSA members.

Participants will include a diverse mix of experienced activists and members interested in getting more involved in their union.

Interested in this opportunity? Please apply using the on-line application form. (*You need to be logged in to register. Then go to "Member Services > Event Registration".*) It is expected that successful applicants attend an evening IWD event following a group dinner, which means. Out of town participants will need overnight accommodation on March 8th.
